CMHC Purchase

Helping to Make Dreams of Homeownership Come True

For most people, the hardest part of buying a home – especially a first home – is saving the necessary down payment. CMHC-insured financing can help open the doors to homeownership by enabling homebuyers to purchase a home with a minimum down payment of 5%.

Features

- Loan-to-value ratios up to 95% for 1 – 2 unit owner-occupied properties.
- Loan-to-value ratios up to 90% for 3 – 4 unit owner-occupied properties.
- Down payment flexibility – In addition to traditional sources, non-traditional sources of down payment are permitted for loans with loan-to-value ratios from 90.01% - 95%.
- Flexible financing options – single advance, progress advances and extended amortization periods are available.
- CMHC-insured mortgages are portable – helping to reduce or eliminate the premium on the purchase of a subsequent home.
- CMHC offers mortgage loan insurance premium refunds for homeowners who purchase an energy-efficient home or purchase and make energy-saving renovations to an existing home. See CMHC Green Home for more information.
